Dear Mr. Gobles:

Re: Closure Certification
CTS Corporation
Electromechanical Division
Plastics Plant
Elkhart, Indiana
IND 000806752

The Indiana Department of Environmental Management (IDEM) has received the Closure Certification Report dated July 3, 2003, submitted on your behalf by APT, Limited for the above referenced facility. The report was provided to demonstrate the completion of closure activities as outlined in the amended closure plan approved by the IDEM in a letter dated July 31, 2002. IDEM staff have reviewed the report and determined that the surface soil sampling meets the approved closure standards. The remaining issues, as identified in the closure report, are the on-going investigation of groundwater contamination, and subsurface soil contamination to the south of the container storage unit.

CTS is currently addressing site-wide subsurface soil and groundwater contamination in conjunction with the IDEM's Voluntary Remediation Program (VRP). As discussed with you and your representatives in the past, the IDEM will hold in abeyance final approval of the closure certification pending completion of the VRP requirements, including, but not limited to ground water and subsurface soil contamination at the facility.

Mr. Marvin E. Gobles, P.E.

Closure should be completed in accordance with the schedule contained in the ACP. If you have any questions regarding this matter please contact Paula Bansch at 317/232-3243.

Sincerely,

A handwritten signature in dark ink, appearing to read "Victor P. Windle". The signature is stylized with a large "V" and "W".

Victor P. Windle, Chief
Hazardous Waste Permit Section
Permits Branch
Office of Land Quality
